

Quarantine diary

Day 16

- I feel worried about this whole situation, but I have to wait and everything will be fine.
- My brother came from Porto today. I feel more relieved.

Day 17

- Unfortunately, today the first case of covid-19 in Madeira was confirmed.
- I'm trying not to think about it too much, but it is, in fact, very alarming and very dangerous.

Day 18

- I tried to distract myself a little, so I made the worksheets that some teachers asked for.

- The news doesn't stop talking about this subject and this makes me very "stressed".
- I am very worried about my older brother, as he is working at the hospital in Bragança. I've been talking to him every day.

19th day

- I already miss my friends, but I talk to some by videoconference.
- I also miss the school and the spirit it provides.

Day 20

- I'm sick of being home.
- I want to go out into the street to do what I like most, without being afraid of what might happen.

Day 21

- Today, I was tidying up my room, I feel that this day was fast.
- Even so, I feel trapped inside the house as if someone had tied me up.

Day 22

- I miss my older brother a lot, to hug him, kiss him, pamper him ...

Day 23

- Today, I spent the day watching series. It makes me forget all this, for a moment.

Day 24

- I painted a canvas, to see if I felt less pressured by so much devastating information. In a way, I felt more free.

Day 25

- Today, I reviewed the topics of all subjects given in the 2nd term.
- I didn't remember so much any anymore. 😊

Day 26

- The cases in Madeira are getting worse which makes me very concerned not only for me, but also for my family.

Day 27

- Today was the last day of classes, I wish it were. I wish it was a normal school day, ready to go for the weekend. Unfortunately, it is not; I try not to think about it too much, that the worst is over, but it is difficult.
